DEPARTMENT OF STATE, WASHINGTON, May, 1808. To Wheeler & Wilson, of New York: Sirs:—The Department has received one Gold Medal, awarded to your firm on Sewing and Button Hole Machines at the Paris Universal Exposition of 1867.

Your obedient servant,

WILLIAM H. SEWARD.

NEW YORK, July 1st, 1868.

DEAR SIR:—In your paper of last seek.you or one of your correspondents say that Dr. Drake is not the originator of the celebrated Plantation Bitters, and that they were manufactured and sold by one Pedro Martelle, an old Spaniard, in the Island of St. Thomas, over forty years ago, as every old sea captain can testify. Now, sir, I can certify to the above as being true, for I have followed the sea for over forty years, most of the time doing business with the West Indies. These same Bitters, differently put up and named, were brought to my notice on my first irip to the laland of St. Croix for a cargo of rum, and for years and years after, my ship's stores were never without them. I always supplied my family and many of my neighbors with them, and can truly say, a better Bitters and Tonic is not made in all the world.

White Pine Compound Is NOW OFFERED TO THE AFFLICTED throughout the country, after having been proved by the test-of eleven years, in the New England States, where its merits have become as well known as the tree from which, in part, it derives its virtues.

The White Pine Compound Cures Score Throat Colds Cample, limitarie, Propagation

Sore Throat, Colds, Coughs, Diptheria; Bron-bhits, Spitting of Blood, and Pulmonary Af-fections generally. It is a remarkable Re-medy for Kidney Complaints, Diabetes, dif-feulty of Volding Urino, Bleeding from the Kidneys and Bladder, Gravel, and other

The White Pine Compound. "It was early in the spring of '52 that this compound was originated. A men ber of my family was sflitted with an irritation of the throat attended with a disagreeable cough. I had for some months previous thought that a preparation having for its basis the inside bark of white pine might be so compounded as to be very useful in ciseases of the throat and lungs. To test the value of it in the case alluded to. I compounded a small quantity of the medicine that I had been planning, and gave it in teaspoonful doses. The result was exceedingly gratifying. Within two sales, if placed before the public, that he inally pursuaded me to give it a name, and send it abroad to benefit the suffering. In November, 1855, I first advertised it under the name of white Pine Compound. In two years from that time there had been whole-saled in Manchester alone one hundred dollars worth, where it took the lead of all the cough remedies in the market, and it sill maintains that position. There is good reason for this; it is very soothing and healing in its nature; is warning to the stomach and pleasant withal to the taste, and is exceedingly cheap.

in its nature; is warming to the stomach and pleasant withal to the taste, and is exceedingly cheap.

"As a remedy for kidney complaints the White Pine Compound stands unrivaled. It was not originated for that purpose, but a person in using it for a cough was not only cured of the cough, but was also cured of a kidney difficulty of ten years standing. Since that accidental discovery many thousands have used it for the same complaint, and have been completely cured."

The above was written by Dr. Poland, in 1890. Since then, as in Manchester, the White Compound has taken the lead of all Cough remedies, as well as a preparation for the care of Kidney difficulties, in every city, town, vi lage and hamlet throughout the New England States.

The remedy is as safe and pleasant to take as it is effectual.
